## Casto Researchers

I would like to most sincerely thank all the researchers who contributed their material for this issue and allowed me to publish their home, as well as e-mail, addresses. I am often asked how many of my subscribers have e-mail addresses, and it runs about 55%. (If you use e-mail, why don't you drop me a line just to make sure I've got your most current address!) But that means about 45% of our readers don't use e-mail and do not use the internet for their research. I wanted that 45% to be able to contact these researchers, too. Some of the people who contributed material aren't even subscribers—my subscriber list is currently at 61 (although for several people this will be their last issue because their subscription has expired) - and my e-mail list of researchers is 100—34 of which are subscribers. That means there are another 66 people out there who do not subscribe to the newsletter but are researching the Casto name. I think it is wonderful that some of those people have contributed material for this issue (I'm sending each of them a copy, too). It is nice that we are all working together to form a complete picture of our Casto ancestors.

I have separated this issue into two parts—the first part is a very simple lineage of several Casto researchers. The second part is a census table I created, which follows each Casto family from the 1850 to the 1900 Jackson Co. census. I've seen forms that take ONE family through the census but never something that takes so many families at the same time.

I expect I will publish but when I got order—first it can get con- Plus, one he think about straighten it out together.

that there will be a lot of corrections and/or additions to be made to the information I'm publishing in this issue. the feedback in a future issue. I thought listing the researchers lines would be easy (I'm not even using dates) started in it, I saw how complicated it could quickly become because I was trying to list people in the correct child's descendents, second child's descendents, etc. Unless you are intimately familiar with every Casto line, fusing because you don't know if Daniel was born before or after William, and what if you missed a child? Casto gentleman—"Ned" - had the audacity to marry three times and name two of his sons "Charles"! Didn't how confused I might get in 2000 trying to print that?!! So, if you find mistakes, please let me know and we'll

And last, but not least—I recently contacted Julie Casto, daughter of our friend Jim Casto who passed away last year—about the status of Jim's planned book—Casto Collections 2000. This is what Julie said—"If you could include this in your newsletter: a reminder that my father passed away March 13, 1999 and that I have picked up where he left off; anyone who received a copy of the 1990 version and has revisions/additions can send them to me if they wish; and anyone wishing to receive the updated version please email/snail-mail me their mailing address. To cover copying and mailing, there will be a charge for the book although I don't know how much at this point. Julie M. Casto, 1506 Centennial Circle, Forest Grove, OR 97116, Firiell@earthlink.net, Http://home.earthlink.net/~firiell/casto2k.htm"

Until Next Time,

## What About a “Casto Resource Library”?

I recently had the thought of compiling a “Casto Resource Library”. I recently purchased an older, used copy of “Roots and Branches of John Shafer and Hannah Casto” by Betty Lou Shafer Wardle (1984). Hannah Casto Shafer (1824-1910) was the granddaughter of William Casto (1717-1778). I also have a copy of “Casto Cousins” by Eileen Vickers (1983) and “Summary of the Casto Family” by Richard H. Provance. I'd be happy to look up families in these books for anyone interested and was thinking maybe some other Casto researchers would like to add their resources to our list and volunteer to do look-ups on occasion, too. Contact me if you're either looking for a certain book or resource or if you'd like to help with this project.

After mentioning this idea on our web site, I've had the following responses:

Researcher's Name	Resources
<b>Amy Ryan</b> 5164 High St. Ooltewah, TN 37363 Amyhryan@hotmail.com	Casto Cousins (Eileen Vickers) Jackson County WV Marriages 1831-1879 Jackson County WV Deaths 1856-1949 Jackson County WV 1860 Census Roane County WV Marriages 1856-1919 Roane County WV Deaths 1856-1900
<b>Betty Briggs</b> 7500 N. Wade Rd. Tucson, AZ 85743 Bettyb@flash.net	I have "The Castos and Their Kin" by Carrie Lona Casto Ferrell and Lura Agatha Casto Given, but it isn't indexed and I'm not sure how accurate it is since it was published in 1965.
<b>William Casto</b> 2170 Bellewood Drive St. Albans, WV 25177 WCasto28@aol.com	I have a book on the Morrison Genealogy which is the family of Mariah A. Morrison Casto (wife of Joseph Casto) and I have the book of the "Casto Cousins" by Eileen Vickers. Of course, I have personal recollections of many of those folks on my side of the family.
Dru Falk 6516 Woodway Drive Ft. Worth, TX 76133 D1985d@aol.com	I would be willing to do lookups in the following records which I have access to. 1. Jackson Co., West Virginia Marriages 1831-1900 2. Jackson Co., West Virginia Births & Deaths 1853-1910 3. Jackson Co., West Virginia Wills early to about 1890 2. Upshur Co., West Virginia Mariages 3. Upshur Co., W.Va Births & Deaths. 4. Jackson Co., West Virginia Census years 1850-1910 5. Aileen Vickers' book Casto Cousins 6. A Casto Family History by Richard H. Provance. He also includes Casto marriages from other couties and states

### Casto Families Listed on Jackson Co. Census'

What I attempted to do here was show how each family changed from census to census. I put the figures for 1850 in red, 1860 is blue, 1870 is green, 1880 is black and 1900 is pink. The children who appeared match the color of the year. The parent's ages are shown in color, also, and in the case of more than one marriage, I tried to align the ages with the new wife. I expect there will be several corrections or changes to be made to this chart but I'm hoping it helps out some Casto researchers, too, who may not have seen all these census'. I tried to show the spelling, as it appeared on some of the census – boy, could they misspell! – but I also tried to put the maiden names next to the wives where I knew it. Send me your thoughts on what you think of this chart!
